

LAND OFFICE NEWS

The following communication has been received by the officials of the Alliance land office from the commissioner of the general land office at Washington:

The affidavit required by existing regulations from assignors and assignees in assignments of reclamation homestead entries under the provisions of the act of June 23, 1910 (36 Stat., 592), and the affidavit of the entryman and the affidavits corroborative thereof required by existing regulations in making final

proof of reclamation and the payment of the water right charges on reclamation homestead entries as the basis for the issuance of final certificate and patent on such entries under the provisions of the act of August 9, 1912 (37 Stat., 265), must be sworn to before officers authorized to administer oaths in homestead cases. These affidavits may be sworn to before a United States commissioner or the judge or clerk of any court of record in the land district in which the lands are situated. A notary public is not authorized to

administer oaths in homestead cases and such affidavits sworn to before notarys public will not be accepted by this office.

WILL REMOVE TO MONTANA

Morrill County Ranchman Residing in Alliance Will Sell Stock at Public Sale

In this issue of The Herald appears the advertisement of H. E. Boon's public sale of horses, cattle and machinery, to be held at the ranch in Morrill county, nineteen miles south of Alliance, Wednesday, July 8.

Mr. and Mrs. Boon have decided to move to northwestern Montana, where they visited last winter. They will leave Alliance the latter part of July, with their son Clarence and son-in-law and daughter, Mr. and Mrs. Howard Wining. They have a large number of friends in Box Butte and Morrill counties who will regret to see them leave Nebraska but who will be pleased to learn that they will be pleasantly situated in their new home.

Mr. Boon bought a quarter section of land on which there is fruit and a lot of heavy timber, two miles from Flathead lake. The timber will be cut and sawed into lumber. His son-in-law, C. M. Ellsas, also bought land there. Mr. and Mrs. Ellsas have been living in that country since last fall.

While selling off his stock and machinery, Mr. Boon still holds his Morrill county ranch and his residence property in Alliance.

PERSONAL

If any of our subscribers who paid us for the club of magazines have failed to receive them, we request you to write us. The Subscription Agency to whom we send these subscriptions advise us that errors are liable to occur in having names and addresses properly entered, and for fear that some of our subscribers may not be receiving the magazines, we publish this notice.

It is the wish of the Subscription Agency and the publishers of the magazines as well as ourselves that every subscriber receive the magazines promptly and for a full year.

On account of the magazines all being published monthly, it requires nearly thirty days to get first copies of all the magazines into the hands of new subscribers. If your name has been in our office thirty days and you are not getting the magazines, write us at once, for there has been some mistake made in getting your name properly entered on the mailing list.

It is our intention to continue offering this club of four magazines to our subscribers. If you haven't placed your order with us, we ask you to do it now. All the subscribers who are getting the magazines speak highly of them. They certainly give big value for the money.

Remember, you can secure our paper and four magazines one year for \$1.68.

Guide to Mt. Rainier National Park

Methods of seeing the wonderful ice fields of Mount Rainier National Park are given in a circular on that reservation just issued by direction of Secretary Lane. This park is situated in western Washington, about 56 miles southeast of the city of Tacoma. It has an area of 207,360 acres and comprises Mount Rainier and all it approaches, including one of the largest glacier systems in the world, radiating from any single peak. Surrounding the mountain are beautiful forests of fir and cedar, and in the natural parks below the snow line are luxuriant fields of wild flowers of all colors and descriptions. The lower altitudes of the park are densely timbered with fir, cedar, hemlock, maple, alder, cottonwood, and spruce. The forested areas extending to an altitude of 4,000 feet is reached, and the high, broad plateaus between the glacial canyons present incomparable scenes of diversified beauties, seemingly arranged to suit every taste. These "parks" as they are called, are studded here and there with lakes and streams bordered with clumps of picturesque alpine firs and gorgeous beds of wild flowers, and in numerous instances apparently tender blossoms will be found pushing their heads out from under the snow. The general elevation of the glacial valleys at the boundary lines of the park is about 2,000 feet above sea level. These valleys afford a comparatively easy grade to the lower ends, or "snouts" of the various glaciers—approximately an average additional elevation of 2,000 feet. At these glacier snouts the real alpine nature of Mount Ra-

inier National Park territory is thrust upon the traveler, and from over, around, and alongside the glaciers, trails have been constructed with a view to making the wonders of nature within the park easily accessible as well as to provide patrol routes for the protection of the forests and game. These trails lead to the camps, or parks, known as Paradise Valley, Henrys Hunting Ground, Van Trump Park, Cowlitz Park, Ohanapecoh River and its hot springs, Summerland, Grand Park, Moraine Park, Elysian Fields, Spray Park, Natural Bridge, Cataract Basin, St. Andrews Park, Glacier Basin, etc. In addition to the rules and regulations the circular contains lists of books and magazine articles for the benefit of those desiring more detailed information.

All the fun incident to motorcycle scorching comes before the motorcycle hits something hard.

Something About Government Ownership

No. 8

Advocates of government ownership of telephones have claimed that the American people are paying dividends on "watered" stock.

Here is what Representative Lewis, Chief Congressional Advocate of Government ownership, says about "water" in Bell Telephone stock:

"Be it said for the Bell System that it is the one great corporation in our country that has not issued tons of counterfeit

capital. "Its bonds today represent the actual contributions of its stockholders in money to a great common enterprise."

The telephone business has produced no millionaires.

Last year the net earnings of the Bell System were less than 6 per cent. on the actual investment.

Five per cent. of the gross revenue, or \$11,300,000, were paid in taxes in 1913.

Bell Telephone Service Has Set the Standard for the Rest of the World.

International Harvester Manure Spreaders

The IHC Line GRAIN AND HAY MACHINES Headers, Reapers, Mowers, Rakes, Stalkers, Hay Loaders, Hay Presses, CORN MACHINES Feeders, Pickers, Binders, Cultivators, Ensilage Cutters, Shellers, Shredders, YILLAGE, Pig, Spring-Tooth, and Disk Harrows, Cultivators, GENERAL LINE Oil and Gas Engines, Oil Tractors, Blower Spreaders, Cream Separators, Farm Wagons, Motor Trucks, Thrashers, Grain Drills, Feed Grinders, Kaffee Grinders, Binder Twine

LOOK for the following points in the manure spreader you buy: 1. Correct, efficient, well-tested design. 2. Guarantee of first-class materials. 3. Reinforcing of parts where strains usually come. 4. Strength of parts where occasional strains come. 5. Wearing qualities and protection of driving parts. 6. Reputation of manufacturer, insuring efficient repair service. Satisfied American farmers find these essentials in International manure spreaders. International spreaders have, besides, many features that grew out of long field experience. Study the steel construction in frame, wheels, and driving mechanism; the easily-removable beater; the differentials in rear axles, insuring even spreading while turning corners; the reversible worm and gear; low, easily-loaded box; and many others. International spreaders are of all styles and sizes, high and low, endless and reverse apron. Write for illustrated catalogues, and when we send them we will tell you where you may see the spreaders.
